

POLICY SPECIFICATIONS

Base Policy: Flexible Premium Indexed Adjustable Life Insurance
 Policy Date: [November 1, 2018]
 Insured: [JOHN DOE]
 Owner: [JOHN DOE]
 [State Department of Insurance: (XXX) XXX-XXXX]

Premiums

Planned [Annual] Premium: \$ [1,000.00]
 7 Pay Premium: \$ [3,039.58]
 [Guideline Single Premium: \$ [15,866.47]
 [Guideline Level Premium: \$ [1,288.05]
 [Premium Band: \$ [61.90]
 Minimum* Premium Payment: \$ [50.00]

*Unless a lower premium payment is required to keep the Policy In Force.

Premium Type

Basic Premium: This is equal to all premium paid in a policy year, except for any Internal Premium.
 [Surplus Premium: This is equal to Basic Premium paid in a policy year that exceeds the Premium Band.]
 Internal Premium: This is equal to any premium that is received from a replacement or a conversion of an existing Pacific Life policy.

Premium Load Rate

Maximum Basic Premium Load Rate: [6.90]%
 [Maximum Surplus Premium Load Rate: [20.00]%]
 Maximum Internal Premium Load Rate: [6.90]%

Face Amount Adjustments

Maximum Fee per Evaluation of Insurability: \$[100.00]
 Minimum Basic Face Amount Following Requested Decrease: \$[1,000.00]

Withdrawal Conditions

Maximum Fee for Each Withdrawal: \$[25.00]
 Minimum Amount of Each Withdrawal: \$[200.00]
 Minimum Net Cash Surrender Value Remaining After Withdrawal: \$[500.00]
 Minimum Basic Face Amount After Withdrawal: \$[1,000.00]

POLICY SPECIFICATIONS

Monthly Deduction Factors

Monthly Deduction End Date: [November 1, 2104]
 Administrative Charge Per Month: \$[10.00]

Accounts

Account Addition Method [Account Additions will be added to the Fixed Account Value on the date that they are credited. Account Additions are automatically transferred to the Indexed Segments according to the Payment Instructions on file.]

Account Addition Factors: [Premium payments;]
 [Loan Repayments;]
 [Monthly Deductions, including any allocation of those charges, or other policy credits (excluding any interest credits) that increase the Accumulated Value under the policy; and]
 [Credits under certain riders, if any, which increase the Accumulated Value under the policy.]

Account Deduction Method: [Account Deductions will be taken first from the Fixed Account Value until it has been reduced to zero. Any remaining deductions will be taken proportionate to each Segment Value across all segments in the Indexed Accounts.]

Account Deduction Factors [Monthly Deductions that reduce the Accumulated Value under the policy;]
 [Any Withdrawal from the policy, including any Withdrawal Fee;]
 [Standard Policy Loans;]
 [Any distribution in order to maintain tax qualification under Code Section 7702 (see Tax Qualification as Life Insurance) or to maintain the policy as a non-MEC under Code Section 7702A (see Modified Endowment Contract Tax Status);]
 [Payments, charges and fees under certain riders, if any; and]
 [Any charge, fee, or distribution that reduces the policy's Accumulated Value.]

Indexed Account Transfer Dates: The [15th] Day of Each Calendar Month

(See Indexed Accounts Section For Additional Information)

Cut-Off Date: [[4:00] p.m. Eastern time] of the Cut-Off Date, which is [two] Business Days prior to the Transfer Date.

[The Fixed Account is an Eligible Account under the 2% Interest Guarantee on Termination Rider.]

Loan Account Value

Minimum Loan Amount: \$[200.00]

Guaranteed Annual Loan [2.00]%

Account Credit Interest Rate:

Maximum Annual Loan Account [2.25]%

Charge Interest Rate:

[The Loan Account is an Eligible Account under the 2% Interest Guarantee on Termination Rider.]

Basis of Values Conditions

Fixed Account Guaranteed Interest Rate: [2.00]% Annually. Any excess interest declared by us will be guaranteed for the first policy year.

Basis of Value Mortality Table: 2017 CSO Mortality Tables adopted by the NAIC on April 6, 2016, ultimate only, age nearest birthday, composite (not smoker distinct), sex

POLICY SPECIFICATIONS

distinct with 80% male and 20% female blend for unisex, capped at 0.0833333 per month.

Available Death Benefit Options

- Option A: When elected, the Death Benefit equals the Total Face Amount. When this Death Benefit Option is In Effect, taking a withdrawal may decrease the Total Face Amount as described in the Withdrawals provision of the Policy.
- [Option B: When elected, the Death Benefit equals the Total Face Amount plus the Accumulated Value. When this Death Benefit Option is In Effect, taking a Withdrawal does not reduce the Total Face Amount, but rather, reduces the Accumulated Value, which has the effect of reducing the Death Benefit that would be payable.]
- [Option C: When elected, the Death Benefit equals the Total Face Amount plus the sum of the premiums paid minus the sum of any withdrawals taken and any other distribution that reduces the Accumulated Value, provided that such result is limited to the amount shown as the "Option C Death Benefit Limit". When this Death Benefit Option is In Effect, taking a withdrawal does not reduce the Total Face Amount, but rather increases the sum of the withdrawals, which has the effect of reducing the Death Benefit. For the purpose of Death Benefit Option C calculations, Accelerated Death Benefits are not considered distributions. Under this option, the Death Benefit may be less than the Total Face Amount.]

Death Benefit Elements

- Net Amount At Risk Factor: [1.0016516]
- Death Benefit Option In Effect: [A]
- [Option C Death Benefit Limit: \$[XX,XXX,XXX]]
- Permitted Death Benefit Option Change(s): [The Death Benefit Option may be changed to Option A or B. Changes to Option C from either Option A or B are not permitted.]
- Death Benefit Qualification Test: [Cash Value Accumulation Test (CVAT)*
*CVAT factors applicable on the Policy Date are provided in a table below.]
- Death Benefit Proceeds Additional Interest Rate: 10%
- Minimum Annual Interest Rate for Funds Left on Deposit: [2.00]%

Surrender Charge Calculation

- Surrender Charge Calculation: [The Surrender Charge will not exceed the Maximum Surrender Charge.]

Illustration Conditions

- Maximum Fee for Illustration Requests Per Policy Year: \$[25.00]

POLICY SPECIFICATIONS

[Distribution Program

[Systematic Distribution Program: This is a program of periodic distribution of Policy values that we designate as a Systematic Distribution Program. We reserve the right to discontinue such a program at any time. The program includes periodic distribution to you of a portion of the Policy's Accumulated Value through Policy loans and Withdrawals while the Insured is alive and the Policy is In Force. A Lockout Period (see Lockout Period) will not begin as a result of a Policy loan or Withdrawal that is distributed to you as a result of this program. Before entering into any such program, consult with your Producer/Representative and your tax advisor as distributions may have tax ramifications.]]

ENHANCED PERFORMANCE FACTOR RIDER

This Rider becomes a part of the policy to which it is attached (“the Policy”). All terms of the Policy that do not conflict with this Rider’s terms apply to this Rider. If there is a conflict between the terms of this Rider and the terms of the Policy, the terms of this Rider shall prevail.

Rider Benefit Summary – This Rider enhances the Performance Factor on Eligible Indexed Accounts through the addition of a Rider Performance Factor.

The Rider Performance Factor may produce a credit that may increase your Policy’s Accumulated Value at Segment Maturity. If the credit realized during a given period is greater than the Rider Charges, then the net effect of this Rider on your Policy’s Accumulated Value is positive. If the credit is lower than the Rider Charges during the same period, then the net effect of this Rider on your Policy’s Accumulated Value is negative.

At the time of application, you must select one Rider Design, each with a stated Monthly Rider Charge and Rider Performance Factor. Your Rider Design selection may be changed as described below. This Rider has no cash value and no loan value.

Eligible Indexed Account

Eligible Indexed Account – The terms of this Rider only apply to those accounts classified as an Eligible Indexed Account in the Policy Specifications.

Indexed Accounts can be classified or de-classified as Eligible Indexed Accounts at any time prior to the Cut-Off Date. This change in classification does not impact an existing Segment after its Segment Date. For instance, even if there is a change in an Indexed Account’s classification:

- A Segment that is part of an Eligible Indexed Account on the Segment Date will follow the terms of this Rider to Segment Maturity.
- The terms of this Rider will never apply to a Segment that is in an Indexed Account that is not Eligible on the Segment Date.

We will notify you in writing of any changes to Eligible Indexed Accounts, including the addition of an Indexed Account that is an Eligible Indexed Account. This notification will include the effective date of the change to the classification of the Eligible Indexed Account(s).

Rider Designs

Rider Designs – This Rider provides different Rider Designs, each of which represent a unique set of Rider Performance Factors and their associated Rider Charge Rates. All available Rider Designs are shown in the Policy Specifications.

Rider Design Selection – You must select a Rider Design at the time of application. You may select a different Rider Design by providing us with a request specifying the Rider Design you are selecting as indicated below:

- On or prior to the Policy’s first Rider Design Selection Date, you may request a change to your Rider Design Selection. The Rider Design will be effective on the Segment Date of the first Segment in an Eligible Indexed Account.
- Thereafter, you may change the Rider Design no more than once annually. Your request must be received on or before the Rider Design Selection Date in each Policy year. The change will take effect for all Segments in Eligible Indexed Accounts with a Segment Date on or after the Rider Design Effective Date and will remain in effect through the Segment Term.

Selecting a different Rider Design will not affect Segments with a Segment Date prior to the Rider Design Effective Date.

Rider Design Selection Date – The annual date by which your request to change a Rider Design must be received by us. This date is the first Cut-Off Date of each Policy year.

Rider Design Effective Date – The date on which any change in Rider Design will become effective annually. This date is the Transfer Date next following each Rider Design Selection Date.

Rider Charges

Rider Charge – The monthly Rider Charge is taken from the Accumulated Value as an Account Deduction, and is calculated as shown in the Policy Specifications. The Rider Design that is in effect on each Segment Date determines the Rider Charge Rate that will be used to calculate the Rider Charge for that Segment.

Performance Factors

Rider Performance Factor – A Rider Performance Factor is set on the Segment Date for each Segment in an Eligible Indexed Account, and will remain the same during the Segment Term. The Rider Performance Factor is added to the Performance Factor shown in the Policy Specifications for each Eligible Indexed Account.

The Minimum Rider Performance Factor for each Rider Design is shown in the Policy Specifications. We may use a higher Rider Performance Factor for each Rider Design and Eligible Indexed Account. Any higher Rider Performance Factor will apply uniformly to all members of the same Class.

Performance Factor – The Guaranteed Minimum Performance Factor for each Indexed Account is included in the Indexed Account Factors section of the Policy Specifications.

General Provisions of this Rider

Effective Date – This Rider takes effect on the Policy Date and stays In Force until Rider Termination.

Rider Termination – This Rider will terminate upon the earlier of the following:

- The Monthly Payment Date on or next following the date we receive your Written Request to terminate this Rider; or
- The date the Policy ceases to be In Force.

The Rider Performance Factor and Rider Charges are unchanged for any Segment that has not reached its Segment Maturity as of the date the Rider terminates. Segments with Segment Dates after Rider Termination will not have a Rider Performance Factor or Rider Charges.

Reinstatement – This Rider may not be reinstated if it is terminated by Written Request. Otherwise, this Rider will reinstate on the date that the Policy is reinstated.

Effect of Additional Benefits on Rider Provisions – Your policy may include additional benefits that were added by rider or endorsement. These rider and endorsement forms may include provisions that replace or amend provisions in this contract. **Please read your entire policy, including all riders and other forms carefully.**

[www.PacificLife.com]

[(800) 347-7787]

POLICY SPECIFICATIONS

Enhanced Performance Factor Rider

Rider Charges

Rider Charge – The Rider Charge is calculated and added to the Monthly Deductions on each Monthly Payment Date. It is the sum of the Rider Charges calculated for each Segment.

For each Segment in an Eligible Indexed Account, the Rider Charge for that Segment is equal to $(a \times b)$, where:

a = The Rider Charge Rate, shown in the table below, applicable to that Segment; and

b = The Segment Value on the Monthly Payment Date before any Monthly Deduction is assessed.

The Rider Charge for a given Segment will cease upon its Segment Maturity.
